

ANNEX 1

PRODUCT-SPECIFIC RULES OF ORIGIN

INTRODUCTORY NOTES TO ANNEX 1

1. This Annex sets out the conditions required for a product to be considered originating within the meaning of Article 5 (Sufficient Production).
2. The following definitions apply:
 - **subheading** means any six-digit number, or the first six digits of any number, used in the Harmonized System,
 - **heading** means any four-digit number, or the first four digits of any number, used in the Harmonized System,
 - **chapter** means a chapter of the Harmonized System, and
 - **section** means a section of the Harmonized System.
3. The product-specific rule of origin, or set of rules of origin, that applies to a product classified in a particular heading, subheading or group of headings or subheadings is set out immediately adjacent to that heading, subheading or group of headings or subheadings.
4. Unless otherwise specified, a requirement of a change in tariff classification or any other condition set out in a product-specific rule of origin applies only to non-originating material.
5. Section, chapter, heading or subheading notes, where applicable, are found at the beginning of each new section, chapter, heading or subheading. These notes must be read in conjunction with the product-specific rules of origin for the applicable section, chapter, heading or subheading and may impose further conditions on, or provide an alternative to, the product-specific rules of origin.
6. Unless otherwise specified, reference to weight in a product-specific rule of origin means the net weight, which is the weight of a material or a product not including the weight of packaging. Article 1 (Definitions) of the Rules of Origin and Origin Procedures Protocol includes definitions of “net weight of non-originating material” and “net weight of the product.”
7. A reference to non-originating sugar in a product-specific rule of origin means the non-originating material referred to in Article 16 (Sugar) of the Rules of Origin and Origin Procedures Protocol.
8. Where a product-specific rule of origin requires:

LIMITED

- **a change from any other chapter, heading or subheading, or a change to [a product] from any other chapter, heading or subheading**, only non-originating material classified in a chapter, heading or subheading other than that of the product may be used in the production of the product.
- **a change from within a heading or subheading, or from within any one of these headings or subheadings**, non-originating material classified within the heading or subheading may be used in the production of the product, as well as non-originating material classified in a chapter, heading or subheading other than that of the product.
- **a change from any heading or subheading outside a group**, only non-originating material classified outside the group of headings or subheadings may be used in the production of the product.
- **a product is wholly obtained**, the product must be wholly obtained within the meaning of Article 4 (Wholly Obtained Products). Where a shipment consists of a number of identical products classified under the specified [tariff provision], each product shall be considered separately.
- **production in which all the [material] of [tariff provision] used is wholly obtained**, all of the material of the specified [tariff provision] used in production of the product must be wholly obtained within the meaning of Article 4 (Wholly Obtained Products).
- a change from [tariff provision], **whether or not there is also a change from any other chapter, heading or subheading**, the value of any non-originating material that satisfies the change in tariff classification specified in the phrase commencing with the words “whether or not” is not considered when calculating the value of non-originating material. Where two or more product-specific rules of origin are applicable to a heading, subheading or group of headings or subheadings, the change in tariff classification specified in this phrase reflects the change specified in the first rule of origin.
- **that the value of the non-originating materials of [tariff provision] does not exceed [x] per cent of the transaction value or ex-works price of the product**, only the value of the non-originating material specified in this rule of origin is considered when calculating the value of non-originating material. The percentage for the maximum value of non-originating material as set out in this rule of origin may not be exceeded through the use of Article 6 (Tolerance).
- **that the value of the non-originating materials classified in the same [tariff provision] as the final product does not exceed [x] per cent of the transaction value or ex-works price of the product**, non-originating material classified in a [tariff provision] other than that of the product may be used in the production of the product. Only the value of the non-originating material classified in the same [tariff provision] as the final product is considered when calculating the value of non-originating material. The percentage for the maximum value of non-originating material as set out in this rule of origin may not be exceeded through the use of Article 6 (Tolerance).

LIMITED

- **that the value of all non-originating materials does not exceed [x] per cent of the transaction value or ex-works price of the product.** The value of all non-originating material is considered when calculating the value of non-originating material. The percentage for the maximum value of non-originating material as set out in this rule of origin may not be exceeded through the use of Article 6 (Tolerance).
 - **that the net weight of the non-originating [material] of [tariff classification] used in production does not exceed [x] per cent of the net weight of the product,** the specified non-originating material may be used in the production of the product, provided that it does not exceed the specified percentage of the net weight of the product in accordance with the definition of “net weight of the product”. The percentage for the maximum weight of non-originating material as set out in this rule of origin may not be exceeded through the use of Article 6 (Tolerance).
9. The product-specific rule of origin represents the minimum amount of production required on non-originating material for the resulting product to achieve originating status. A greater amount of production than that required by the product-specific rule of origin for that product also confers originating status.
10. Where a product-specific rule of origin provides that a specified non-originating material may not be used, or that the value or weight of a specified non-originating material cannot exceed a specific threshold, these conditions do not apply to non-originating material classified elsewhere in the Harmonized System.
11. In accordance with Article 5 (Sufficient Production), when a material obtains originating status in the territory of a Party and this material is further used in the production of a product for which origin is being determined, no account will be taken of any non-originating material used in the production of that material. This applies whether or not the material has acquired originating status inside the same factory where the product is produced.
12. The product-specific rules of origin set out in this Annex also apply to used products.

Harmonized System Classification	Sufficient production
Section I	Live Animals; Animal Products
Chapter 1 01.01-01.06	Live Animals All animals of Chapter 1 are wholly obtained.
Chapter 2 02.01-02.10	Meat and Edible Meat Offal Production in which all the material of Chapters 1 or 2 used is wholly obtained.
Chapter 3 03.01-03.07	Fish and Crustaceans, Molluscs and Other Aquatic Invertebrates <i>Note: Aquaculture products of Chapter 3 will only be considered as originating in a Party if they are raised in the territory of that Party from non-originating or originating seedstock such as eggs, fry, fingerlings or larvae.</i> Production in which all the material of Chapter 3 used is wholly obtained.
Chapter 4 04.01 0402.10 0402.21-0402.99	Dairy Produce; Birds' Eggs; Natural Honey; Edible Products of Animal Origin, Not Elsewhere Specified or Included A change from any other chapter, except from dairy preparations of subheading 1901.90 containing more than 10 per cent by dry weight of milk solids, provided that all the material of Chapter 4 used is wholly obtained. A change from any other chapter, except from dairy preparations of subheading 1901.90 containing more than 10 per cent by dry weight of milk solids, provided that: (a) all the material of Chapter 4 used is wholly obtained, and (b) the net weight of non-originating sugar used in production does not exceed 40 per cent of the net weight of the product. A change from any other chapter, except from dairy preparations of subheading 1901.90 containing more than 10 per cent by dry weight of milk solids, provided that:

¹ The Parties agree to apply cumulation with the United States according to the following provisions:

Provided that there is an FTA in force between both Parties and the United States consistent with the Parties' WTO obligations and the Parties reach agreement on all the applicable conditions, any material of Chapter 84, 85, 87 or 94 of the Harmonized System used in the production of this product in Canada or the EU will be considered as originating. Without prejudice to the outcome of the free trade negotiations between the EU and the United States, the discussions on the applicable conditions will include consultations to ensure consistency between the calculation method agreed between the EU and the United States and the method applicable under this Agreement for this product, if necessary.

Accordingly the above rule of origin will cease to apply one year following the entry into application of such cumulation and the following rule of origin shall apply instead:

Production in which the value of all non-originating materials used does not exceed 40 % of the ex-works price or transaction value of the product.

The application of cumulation and of the new rule of origin will be published in the EU Official Journal for information purposes.

² This rule of origin will cease to apply seven years after the entry into force of this Agreement. The following rule of origin shall apply instead:

Production in which the value of all non-originating materials used does not exceed 45 % of the ex-works price or transaction value of the product.

Notwithstanding the foregoing, and subject to any applicable conditions agreed upon by the Parties, the following rule of origin shall apply when the cumulation provided for in Appendix 1: (Origin Quotas and Alternatives to Annex 1) of Section D – Vehicles, Note 1 enters into application:

Production in which the value of all non-originating materials used does not exceed 40 % of the ex-works price or transaction value of the product.

Appendix 1: Origin Quotas and Alternatives to Annex 1 – Product-Specific Rules of Origin

Common Provisions

1. This Appendix applies to the products identified in the following Sections:
 - a. Section A: Agricultural Products
 - b. Section B: Fish and Seafood
 - c. Section C: Textiles and Apparel
 - d. Section D: Vehicles
2. For the products listed in the tables within each Section, the corresponding rules of origin are alternatives to those set out in Annex 1 – Product-Specific Rules of Origin, within the limits of the applicable annual quota.
3. The importing Party shall manage the origin quotas on a first-come, first-served basis and shall calculate the quantity of products entered under these origin quotas on the basis of that Party's imports.
4. All exports under the origin quotas must make reference to this Appendix. The Parties shall not count any products against the annual origin quota without such reference.
5. Canada shall notify the EU if any Canadian-issued documentation requirements are established for:
 - a. products exported from Canada under the applicable origin quota, or
 - b. products imported into Canada under the applicable origin quota.
6. Where the EU receives notification as per paragraph 5(a), the EU shall allow for only those products accompanied by such documentation to claim the preferential tariff treatment based on the alternative rule of origin specified in this Appendix.
7. The Parties shall administer the origin quotas on a calendar year basis with the full in-quota quantity to be made available on January 1st of each year. For the administration of these origin quotas in year 1, the Parties shall calculate the quota volumes of these origin quotas by discounting the volume corresponding to the period running between the 1st of January and the date of entry into force of the Agreement.
8. In the EU Party, any quantities referred to in this Annex shall be managed by the European Commission, which shall take all administrative actions it deems advisable for their efficient management in respect of the applicable legislation of the EU Party.
9. The Parties shall consult as needed to ensure that this Appendix is administered effectively and shall cooperate in the administration of this Appendix. The Parties shall consult to discuss possible amendments to this Appendix.
10. Additional provisions, such as review or growth of the origin quotas, are provided separately for each Section.

Review and Growth

1. The Parties shall review the origin quota level at the end of every five year period for the first three consecutive periods following the entry into force of this Agreement.

³ The products, to which Table A1 applies, must contain 65 per cent or more by net weight of added cane or beet sugar of subheading 1701.91 through 1701.99. All the cane or beet sugar must have been refined in Canada.

⁴ With regard to the products to which Table A1 applies, it is understood that the sufficient production included in this column provides for production beyond the insufficient production provided in Article 7.

Final 1 August 2014

2. At the end of each five year period for the first three consecutive periods of five years following the entry into force of this Agreement, the origin quota volume in Table A.1 will be increased by 20 per cent of the volume set in the previous period, provided that:
 - a. in any one year during the first five year period the fill-rate is at least 60 per cent,
 - b. in any one year during the second five year period the fill-rate is at least 70 per cent,
 - c. in any one year during the third five year period the fill-rate is at least 80 per cent.
3. Any increase in the origin quota volume will be implemented in the first quarter of the subsequent calendar year.
4. This review will be conducted by the sub-committee on agriculture. At the end of the review, if applicable, the Parties shall notify each other in writing of an increase in the origin quota under paragraph 2 and the date on which the increase applies under paragraph 3. The Parties shall ensure that an increase in the origin quota and the date it becomes applicable are publicly available.

Review and Growth

1. The Parties shall review the origin quota in Table A.2 at the end of every 5 year period following the entry into force of this Agreement, provided that in any one year during the previous 5 year period, the origin quota fill-rate is at least 60 per cent.
2. The review will be conducted with a view to increasing the volume based on the

LIMITED

examination of all relevant factors, in particular the fill rate, growth in Canadian exports to the world, growth in total EU imports, and any other significant trends in trade of the products to which the origin quota applies.

3. The rate of increase in the origin quota will be established for the subsequent period of five years, and will not be greater than 10 per cent of the volume set in the previous period.
4. This review will be conducted by the sub-committee on agriculture. Any recommendation of the sub-committee on agriculture to increase the origin quota volume shall be submitted to the Joint Committee for a decision in accordance with Article X.02 (2) of the Chapter on Final Provisions.

Review and Growth

1. The Parties shall review the origin quota in Table A.3 at the end of every 5 year period following the entry into force of this Agreement, provided that in any one year during the previous 5 year period, the origin quota fill-rate is at least 60 per cent.
2. The review will be conducted with a view to increasing the volume based on the examination of all relevant factors, in particular the fill rate, growth in Canadian exports to the world, growth in total EU imports, and any other significant trends in trade of the products to which the origin quota applies.
3. The rate of increase in the origin quota will be established for the subsequent period of five years, and will not be greater than 10 per cent of the volume set in the previous period.
4. This review will be conducted by the sub-committee on agriculture. Any recommendation of the sub-committee on agriculture to increase the origin quota volume shall be submitted to the Joint Committee for a decision in accordance with Article X.02 (2) of the Chapter on Final Provisions.

Review and Growth

1. The Parties shall review the origin quota in Table A.4 at the end of every 5 year period following the entry into force of this Agreement, provided that in any one year during the

LIMITED

previous 5 year period, the origin quota fill-rate is at least 60 per cent.

2. The review will be conducted with a view to increasing the volume based on the examination of all relevant factors, in particular the fill rate, growth in Canadian exports to the world, growth in total EU imports, and any other significant trends in trade of the products to which the origin quota applies.
3. The rate of increase in the origin quota will be established for the subsequent period of five years, and will not be greater than 10 per cent of the volume set in the previous period.
4. This review will be conducted by the sub-committee on agriculture. Any recommendation of the sub-committee on agriculture to increase the origin quota volume shall be submitted to the Joint Committee for a decision in accordance with Article X.02 (2) of the Chapter on Final Provisions.

Growth

- For each of the products listed in Table B.1, if more than 80 per cent of an origin quota assigned to a product is used during a calendar year, the origin quota allocation will be increased for the following calendar year. The increase will be 10 per cent of the origin quota assigned to the product in the previous calendar year. The growth provision will apply for the first time after the expiry of the first complete calendar year following the entry into force of the Agreement and will be applied for 4 consecutive years in total.
- Any increase in the origin quota volume will be implemented in the first quarter of the subsequent calendar year. The importing Parties shall notify the Party of export in writing if the condition in paragraph 1 is met, and if so, the increase in the origin quota and the date on which the increase is applicable. The Parties shall ensure that the increased origin quota and the date it becomes applicable are publicly available.

Review

After the completion of the third calendar year following the entry into force of this Agreement, at the request of a Party, the Parties will engage in a discussion on possible revisions to this Section.

⁵ With regard to the rule of origin for products of 0304.29, it is understood that the production is beyond the insufficient production provided in Article 7.

Growth

1. For each of the products listed in Tables C.1, C.2, C.3 and C.4, if more than 80 per cent of an origin quota assigned to a product is used during a calendar year, the origin quota allocation will be increased for the following calendar year. The increase will be 3 per cent of the origin quota assigned to the product in the previous calendar year. The growth provision will apply for the first time after the expiry of the first complete calendar year following the entry into force of the Agreement. The annual origin quota allocations may be increased during a period of up to ten years.
2. Any increase in the origin quota volume will be implemented in the first quarter of the subsequent calendar year. The importing Party shall notify the Party of export in writing if the condition in paragraph 1 is met, and if so, the increase in the origin quota and the date on which the increase is applicable. The Parties shall ensure that the increased origin quota and the date it becomes applicable are publicly available.

Review

At the request of a Party, the Parties shall meet to revise the product coverage quantities of the quota allocations based on developments in the relevant markets and sectors. The Parties may make recommendations to the Committee on Trade in Goods.

Note 1

The Parties agree to apply cumulation with the United States according to the following provisions:

Provided that there is an FTA in force between both Parties and the United States consistent with the Parties' WTO obligations and the Parties reach agreement on all the applicable conditions, any material of Chapter 84, 85, 87 or 94 of the Harmonized System used in the production of a product of 8703.21 through 8703.90 of the Harmonized System in Canada or the EU will be considered as originating. Without prejudice to the outcome of the free trade negotiations between the EU and the United States, the discussions on the applicable conditions will include consultations to ensure consistency between the calculation method agreed between the EU and the United States and the method applicable under this Agreement for products of Chapter 87, if necessary.

Accordingly Table D.1 will cease to apply one year following the entry into application of such cumulation.

The application of cumulation and deletion of Note 1 will be published in the EU Official Journal for information purposes.

Review Provision

If 7 years after entry into force of the Agreement, cumulation with the US has not yet entered into force, both Parties shall meet to review these provisions if one Party requests so.

Alternative PSRO for Products of 87.02

For products of heading 87.02 exported from Canada to the EU, the following rule of origin applies as an alternative to the rule of origin provided in Annex 1 (Product-Specific Rules of Origin):

A change from any other heading, except from heading 87.06 through 87.08; or

A change from within this heading or heading 87.06 through 87.08, whether or not there is a change from any other heading, provided that the value of the non-originating materials of this heading or heading 87.06 through 87.08 does not exceed 50 per cent of the transaction value or ex-works price of the product.

This rule of origin will apply to the enterprises located in Canada and their successors and assigns producing products of heading 87.02 in Canada, as of date of initialling of this Agreement.

Note 2

The Parties agree to apply cumulation with the United States according to the following provisions:

Provided that there is an FTA in force between both Parties and the United States consistent with the Parties' WTO obligations and the Parties reach agreement on all the applicable conditions, any material of Chapter 84, 85, 87 or 94 of the Harmonized System used in the production of a product of 87.02 of the Harmonized System in Canada or the EU will be considered as originating.

Accordingly the alternative PSRO for products of 87.02 will cease to apply one year following the entry into application of such cumulation.

The application of cumulation and deletion of Note 2 will be published in the EU Official Journal for information purposes.
