Article 24b (new)

Additional obligations for platforms primarily used for the dissemination of user-generated pornographic content

Where an online platform is primarily used for the dissemination of user generated pornographic content, the platform shall take the necessary technical and organisational measures to ensure

(a) that users who disseminate content have verified themselves through a double opt-in e-mail and cell phone registration;

(b) professional human content moderation, trained to identify image-based sexual abuse, including content having a high probability of being illegal;

(c) the accessibility of a qualified notification procedure in the form that additionally to the mechanism referred to in Article 14 individuals may notify the platform with the claim that image material depicting them or purporting to be depicting them is being disseminated without their consent and supply the platform with prima facie evidence of their physical identity; content notified through this procedure is to be suspended without undue delay.
